

NEXT – Popular Manufacturers

WHAT IS POPULAR MANUFACTURERS?

The „**Popular manufacturers**“ module is part of the **TOPMOTIVE NEXT catalog**. It supports the user in prioritizing car manufacturers by integrating unique analytical knowledge. The overall goal: Repair shops can find spare parts faster and easier through an individually tailored and coordinated search.

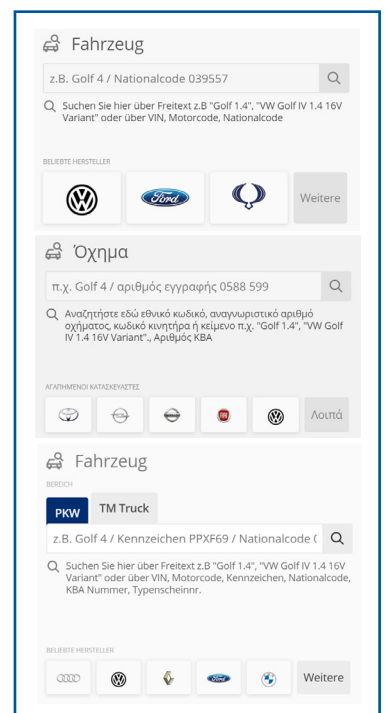

WHAT FUNCTIONS DOES POPULAR MANUFACTURERS PROVIDE?

Different workshops, different know-how. Many repair shops specialize in certain manufacturers. A catalog system comprises several hundred car brands on average. The module „**Popular Manufacturer**“ finds its way to the suitable spare part and thus to the individual preferred manufacturer more efficiently.

In the vehicle module, the individually most important manufacturers are now displayed. Prioritization is based on use within the repair shop. The implementation is achieved through the use of unique TOPMOTIVE processes and the resulting associated expertise. With the help of analytical evaluation tools the claim is continuously taken into account and the selection displayed is based on the respective concerns and preferences.

WHAT BENEFITS DOES POPULAR MANUFACTURERS OFFER?

- + Active use of the knowledge acquired by the respective repair shop
- + Individual search tailored to the repair shop
- + Considerable simplification of the search in the catalog
- + Significant time saving
