

CARDRIVER APP

WHAT IS THE CARDRIVER APP?

With the „Cardriver App“, Cartelligence offers a combination that is unique on the market to date. Fully integrated measures such as workshop and vehicle search, integrated service calculation (fast calculator), chat module, integrated workshop calendar and marketing tools offer both sides – the driver and the workshop – a platform for digital and more efficient communication. With just a few clicks, the driver can find out how much the upcoming repair or the next service in his workshop will cost, ask questions and make an appointment directly.

WHICH FUNCTIONS DOES THE CARDRIVER APP PROVIDE?

- Adaptable, individual constellations, regional characteristics
- Direct interface to the wholesaler's catalog system
- Vehicle search via KBA number, VIN, scanning of the (German) vehicle registration
- Save the vehicle with: Initial registration and mileage
- Interface to Workshop Profiler
- Date bookings
- Integrated marketing tool for individual marketing campaigns
- Chat and documents: Direct secure communication of the driver to the workshop
- Service calculation

WHICH BENEFITS DOES THE CARDRIVER APP PROVIDE?

- Faster, more regular and more comfortable communication between workshop and driver
- Closes previous communication gap
- Increased customer loyalty from the workshop's perspective
- Increased transparency and trust from the driver's perspective
