

WHAT IS DVSE?

The DVSE („Gesellschaft für Datenverarbeitung, Service & Entwicklung“) GmbH is part of the TOPMOTIVE Group and creates electronic labor times for spare parts catalogs and information systems. Since 1996, experienced car mechanics and vehicle engineers have created one of the largest databases that takes into account the specific needs of the independent automotive industry. Free garages can quickly, easily and reliably find out how much time is needed to provide the right service, whether it is a primary, compound, or pre-and post-production job.

WHICH BENEFITS DOES DVSE PROVIDE?

- ✓ All labor times are collected on the basis of OE data and are adapted individually to the independent automotive industry.
- ✓ Practical information by experienced car mechanics and vehicle engineers.
- ✓ DVSE provides labor times in 28 languages.
- ✓ The labor times are available for both cars and trucks.
- ✓ All labor times are automatically linked to product groups (generic articles) and installing positions (front/back, left/right).
- ✓ The resulting calculation of a service performance facilitates the daily routines of the repair shop and at the same time ensures transparency towards the end user – for greater customer loyalty.
- ✓ A dedicated DVSE support team answers questions as first contact for repair shops – both by phone and in writing. Assistance and valuable tips and tricks included.

CONTACT In case of further questions, feel free to contact our team:
