

TOPMOTIVE DATAPOOL

TOPMOTIVE supports automotive parts manufacturers and importers in compiling catalog data in the categories passenger cars, light commercial vehicles, trucks and motorbikes. Our catalogs for the spare parts trade contain article information from all data suppliers.

The TOPMOTIVE Datapool is one of the most important hubs for standardized catalog data worldwide and is an important prerequisite for any cooperation with international parts wholesalers.

The data of our Datapool members is provided for the wholesalers' catalogs in the standard data format.

Accordingly, entry into our TOPMOTIVE Datapool forms the basis for any large-scale and international distribution of your products.

Data quality is the basic prerequisite for any successful data distribution and optimum sales opportunities. Thus, we support TOPMOTIVE Datapool members and other parts manufacturers from the automotive aftermarket during the creation, conversion or expansion of data.

*As a TOPMOTIVE Datapool member, you will also receive our data maintenance program which enables you to maintain your catalog data in a fast and easy manner

HIGHLIGHTS

+ IN ALL RELEVANT CATALOGS

TOPMOTIVE is the European-wide market leader with its catalogs in the aftermarket. As an TOPMOTIVE Datapool Member you have the potential to be represented in all these catalogs.

+ AUTOMOTIVE INDUSTRY STANDARD DATA

Data can be exported and made available to other users using the appropriate data standard at any time.

+ FIRST-CLASS SUPPORT

Every data supplier will be supported comprehensively in compiling the data.

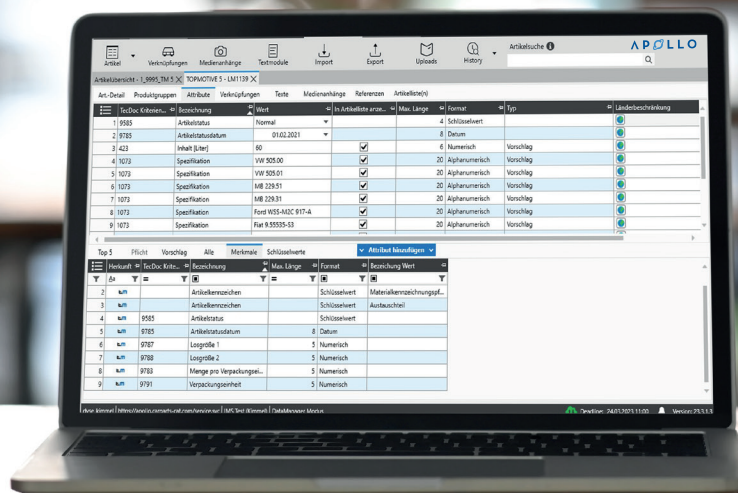

+ SOFTWARE & TRAINING

Every data supplier gets our data maintenance tool „Apollo-Datamanager“ including training.

+ MONTHLY UPDATES

All TOPMOTIVE Datapool Customers can update their data on a monthly basis.

Last updated: 12/23
