

AUTODATA-TRAINING

01

WHAT IS AUTODATA TRAINING?

AUTODATA Training is the smart digital learning solution designed for automotive technicians, trainers, and apprentices. With 400+ technical video modules and hands-on, workshop-ready content, you'll always stay ahead of the curve. From the latest vehicle technologies to diagnostic methods and core fundamentals – training is available anytime, anywhere, and on any device.

02

WHAT MAKES AUTODATA TRAINING STAND OUT?

Seamless integration into NEXT: Access training directly within your information system. No extra logins. No external platforms.

400+ technical modules: Covering everything from the basics to advanced vehicle systems and diagnostics.

Any device, anytime: Train on PC, tablet, or smartphone – whether in the workshop or on the go.

Always up to date: Content is continuously expanded and updated in real-time for the latest models and technologies.

Designed for real workshop life: Practical training that directly connects to everyday repair and diagnostic tasks.

Easy to use: Clear course structure, intuitive navigation, and simple progress tracking.

03

WHY CHOOSE AUTODATA TRAINING IN NEXT?

Save time: Learn exactly when it fits into your schedule.

Cut costs: No travel, no expensive external training – just instant online access.

Boost quality: Better-trained staff deliver faster, more accurate repairs and higher customer satisfaction.

Secure knowledge: Standardized, high-quality training keeps service levels consistently strong.

Future-proof your team: Regular updates prepare technicians for tomorrow's automotive innovations.

Benefits for Workshops:

- + Faster, more accurate diagnostics with the latest technical knowledge.
- + Shorter vehicle downtimes and smoother workflows.
- + Easier onboarding for new employees – no need for lengthy on-site training.
- + Happier customers thanks to precise, reliable repairs and outstanding service quality.

Benefits for Wholesalers:

- + Strengthen customer loyalty by offering real added value to workshops.
- + Reduce complaints and errors through well-trained workshop staff.
- + Position yourself as a modern, future-focused partner in the aftermarket.
- + Empower your sales team with a strong differentiator: integrated training solutions.
