

## WHAT IS FASTCHECK?

The **Fast Check** is a module within the **TOPMOTIVE catalog**. It supports the documentation within the scope of a vehicle acceptance in the workshop or facilitates a fixed procedure of a vehicle inspection on the part of an official service provider. **Fast Check** enables the documentation of existing damage prior to repair as well as a direct calculation of the damage parts incl. expenditure time. The function is designed for practical and fast use on a tablet device. **FastCheck** can also be used independently of the **TOPMOTIVE catalog** as a "standalone" solution.

## WHAT FUNCTIONS DOES FASTCHECK PROVIDE?

- + Inspection and documentation by taking photographs of existing damage or defects on a vehicle
- + Support in the acceptance process through defined inspection points
- + Interfaces to other systems possible:
  - + Direct calculation of the necessary parts and labor times during the recording of the defects
  - + Transfer of the required parts and times into a cost estimate
    + Overview in form of a PDF incl. inspections, defects as well
  - as photos for better understanding
- + Display in full screen function on the tablet for a better overview of all functions

## WHAT BENEFITS DOES FASTCHECK PROVIDE?

- + More efficient, more digital and therefore more sustainable processes within the workshop (chain) and towards the cardriver
- + Illustrated documentation for better presentation, less need for explanation and increased transparency for the cardriver
- + Less need for discussion and fewer goodwill repairs
