

THE NEXT GENERATION SOFTWARE SOLUTION
FOR ENTERPRISE RESOURCE PLANNING
IN AUTOMOTIVE WORKSHOPS

tmERIK

THE ERP SYSTEM TMERIK IS THE CLOUD-BASED SOLUTION THAT CAN ALSO BE USED IN AN INTERNATIONAL ENVIRONMENT WITHOUT ANY PROBLEMS.

tmERIK includes all modules that significantly simplify the everyday work in automotive workshops. Through the direct connection to the respective wholesaler catalog, tmERIK enables even more efficient, smooth and digital communication. Thanks to automatic system guidance, initial instruction in the standard settings is straightforward. If questions arise, support can be contacted directly via the application.
